COMPANY PROFILE

WHO WE ARE

Established in 2023, PT. Rizak Niaga Mandiri is a leading exporter engaged in the supply and distribution of premium-quality Indonesian agricultural produce and marine commodities to global markets.

We are committed to bridging Indonesia's abundant natural resources with the world's commodity needs through an efficient, sustainable, and trusted supply chain. With a strong network of local farmers and fishermen across strategic regions of Indonesia, we ensure every product we export is harvested and processed to high standards to preserve freshness, authenticity, and nutritional value.

OUR BUSINESS

As a dynamic trader, we act as a strategic bridge connecting networks of selected local producers, farmers, and fishermen with industrial and retail buyers worldwide. We do more than trade commodities—we manage the supply chain from rigorous upstream selection and quality standardization to reliable downstream delivery. With integrity and professionalism, we help business partners access quality products at competitive prices.
